

imposing as little burden as possible on small employers. In the event the Agency determines, based on the results of this review, that the rule should be rescinded or modified, appropriate rulemaking will be initiated.

An important step in the review process involves the gathering and analysis of information from affected persons about their experience with the rule and any material changes in circumstances since issuance of the rule. This notice requests written comments and announces a public meeting to provide an opportunity for interested parties to comment on the continuing need for, adequacy or inadequacy, and potential improvement of this rule. Comment concerning the following subjects would assist the Agency in determining whether to retain the standard unchanged or to initiate rulemaking for purposes of revision or rescission:

1. The benefits and utility of the rule in its current form and, if amended, in its amended form;
2. Whether potentially effective and reasonably feasible alternatives to the standard exist;
3. The continued need for the rule;
4. The complexity of the rule;
5. Whether and to what extent the rule overlaps, duplicates, or conflicts with other Federal, State, and local governmental rules;
6. Information on any new developments in technology, economic conditions, or other factors affecting the ability of affected firms to comply with the Ethylene Oxide rule;
7. Alternatives to the rule or portions of the rule that would minimize significant impacts on small businesses while achieving the objectives of the Occupational Safety and Health Act; and
8. The effectiveness of the standard as implemented by small entities.

Persons making timely written requests to speak at the public meeting will be given priority for oral comments, as time permits. Other persons wishing to speak should register at the meeting from 8:30 to 9:00. OSHA will make every effort to accommodate individuals wishing to speak at the public meeting.

Clean Air Act Promulgation of Extension of Attainment Date for Ozone Nonattainment Area; Ohio; Kentucky

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The USEPA is proposing to extend the attainment date for the Cincinnati-Hamilton interstate moderate ozone nonattainment area from November 15, 1996 to November 15, 1997. This extension is based in part on monitored air quality readings for the national ambient air quality standard (NAAQS) for ozone during 1996. In the final rules section of this **Federal Register**, the USEPA is approving these actions as a direct final rule without prior proposal because USEPA views these actions as noncontroversial and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives substantive adverse comments which have not already been responded to, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received on or before June 26, 1997.

ADDRESSES: Comments may be mailed to Joseph M. LeVasseur at the USEPA Region 4 address listed below or to J.
